Subject: Update - NRRB review of Westlake Landfill

The Board could do this review at our April meeting in DC. The week of April 23. One site planned for review in April has shifted to July.

Hello all! It is my understanding that the Administrator, Region 7 RA, your DD, and my OD agree that the NRRB should review the remedial action planned for this site. We have some flexibility for when this could happen. We can hold a web conference (not video) during the week of February 13 or 20, or you can join the already planned meeting the week of March 12 in Chicago. April is difficult due to spring break and we already have a packed meeting the week of April 23. The month of May is wide open. Let me know what works for you.

Here is the Q&A guide for the Board. It contains an outline for the review package and presentation. (*See attached file: Final.RPM.NRRB.Manual.12.29.11.doc*)
